

**NATIONAL UNIVERSITY OF LESOTHO**  
**Department of Mathematics and Computer Science**  
**CS5430 – Assignment 1**

**Due date: 2<sup>nd</sup> October 2026 before 1600 hours.**

---

## **Part 1**

Design a simple webpage for your business or company. You are allowed to design it from scratch using HTML5 and CSS; or you must use a content management system called Drupal (<https://new.drupal.org>).

The following specifications must be met:

1. Design a simple logo for your company and place it on the webpage. This logo must contain both text and image(s). The final image (logo) format must be in **png**. In addition, the logo must have a transparent background ('colour to alpha').
2. Design a banner which advertises at least two of your company products and/or services. The banner image must be of a **jpeg** format with the following dimensions: **Length = 1108 pixels** and **width = 277 pixels**. This banner must pop up on top or at the bottom of the webpage when the user opens the page. Additionally, the user should have an option of removing the banner (*just like you do with google ads*).
3. There must be a video thumbnail on your webpage such that when a user clicks on it, the actual video plays on the same page.
4. The website must have a menu of at least 5 items. No need to link the menus to any page.
5. The website must be **responsive**.

## **Part 2**

Design a 2 minute PowerPoint presentation that markets your company.

The slide template must hold the theme of your company (corporate) colours as reflected on the website in Part 1 above. Create a PowerPoint video of the presentation and submit it. The format of your video should be MPEG-4 or equivalent.

## **SUBMISSION:**

You can submit a zipped file containing all the source code and content (includes images). A *readme* file that explains how to install your webpage must be attached. You submit via through Thuto. You should include the PowerPoint video in the folder.

Alternatively, you can physically come and demonstrate your webpage in my office.
